

BOMBAY BICYCLE CLUB

2017 RIDE SCHEDULE

ABOUT THE CLUB

The Bombay Bicycle Club of Madison, Inc. was founded in 1974. All cyclists are cordially invited to ride with us. In general, there are no fees to show up to ride. There may be some ride/events with fees noted in the schedule. Helmets are required and non-members must sign a liability waiver before riding with us. We hope you'll enjoy riding with us and consider joining the club. We have a lot to offer you. Visit the [BBC website](#) to learn more.

WHAT TO EXPECT ON A BOMBAY RIDE

Routes generally follow scenic back roads; there may be some stretches on busier roads or highways. Rider leaders scout the route prior to the ride and distribute maps and cue sheets at the ride. Riders go at their own pace - rides are not races, but many use our rides to train for cycling events. Ride leaders will coordinate staggered starts for riders of similar pace when possible. The more riders there are at the start, the better the group riding experience can be for all. We encourage you to bring a friend to ride with, especially if you're a novice or new to the group and are not sure how fast you might be able to ride. Friends tend to get stronger and faster together over the season and usually work into natural pace groups. Commit to riding with us regularly and you'll have plenty of new cycling friends to ride with.

Bombay Bicycle Club of Madison, Inc. cannot assume responsibility for riders or their equipment but ride leaders will assist riders anyway they can. Helmets are required and we recommend a road bike with drop handlebars and proper gearing for the terrain you plan to ride. Two water bottle cages is recommended and you must be ready to fix a flat (spare tube, CO2 cartridges, inflator or pump, patch kit, tire levers, and know-how). Always keep your bike in safe operating condition which includes keeping it clean and lubed. Visit a bike shop for a tune-up before riding and return for other maintenance as needed throughout the riding season.

BICYCLE SAFETY INFORMATION

SHARE & BE AWARE!

You can dramatically increase your safety on the road by:

- Making sure your bike is in good working order
- Observing traffic laws
- Being aware of road conditions

By obeying traffic signs and signals, following all other rules of the road and bicycling in a predictable manner, you'll find more courtesy and respect on the road.

For more details on Wisconsin laws (see next page).

WISCONSIN BICYCLE LAWS

See more detail at: [Bicycle Laws](#)

Vehicular Status

- The bicycle is defined as a vehicle - operators are granted the same rights and subject to the same duties as drivers of any other vehicle.
- E-bikes - Wisconsin state statutes have not been updated to reflect Federal laws yet.

Lane Positioning

- Ride on the right, in the same direction as other traffic. Ride as far to the right as is practicable (not as far right as possible). Practicable generally means safe and reasonable.
- One Way Streets - may ride as near the left or right-hand edge or curb of the roadway as practicable (in the same direction as other traffic).

Bike Lanes and Use of Shoulders

- No motor vehicles in/on bicycle lanes/bicycle ways except when temporarily crossing.
- Motorists shall yield the right-of-way to all bicycles and others within the bicycle lane.
- Bicycles may be ridden on the shoulder of a highway unless prohibited.

Passing - 3 feet of clearance is required by both motorist and bicyclists when passing

Riding 2 Abreast - is permitted on any street as long as other traffic is not impeded. When on a 2 or more lane roadway ride within a single lane.

Red Lights - after stopping for 45 seconds, bicycles can ride through red lights.

Use of Sidewalks - where allowed, yield to pedestrians and give warning when passing going in the same direction.

Bicycling at Night - requires at least a white front headlight, a red rear reflector and/or a red rear light.

Hand Signals - Bicyclists are required to use hand signals or the alternate right hand to indicate right turn. Hand signals are required within 50 feet of a turn but not required continuously if both hands are needed to control the bicycle.

ABOUT OUR RIDES

Rides are scheduled April through November and go rain or shine. Start times and starting locations vary.

Hilliness Ratings - Approximate mile & hilliness ratings are stated for most routes. We hope this helps you choose rides you will enjoy. Remember, proper gearing and pace are very important.

Rolling Hills - relatively gentle hills

Moderately Hilly - modest number of climbs; not unusually steep or long

Hilly - numerous climbs; some may be quite steep or long

Very Hilly - for those that really enjoy climbing and descending hills

Thursday Night Social Rides - social group rides of about 25 miles, starting at various locations out of town. Participants are encouraged to stay and socialize at a local restaurant following the ride.

Women's Rides - "No-Drop" rides of short to medium distances with a focus on riding as a group. These rides are generally intended for women and the pace will be set by women, however, men are not excluded from attending. These are social rides often with planned stops along the way to refuel and regroup. Men are not excluded if they want to join these rides.

Saturday Social Rides – Saturday rides offer more variety in start locations and distances. Many Saturday rides start in the countryside outside of Madison. These are social rides that will typically have planned stops along the way to refuel and regroup.

Sunday Rides – Sunday rides usually have long, medium and short options. Start points are mostly close to Madison. Ride leaders typically "sweep" the route. Novice riders are encouraged to ride the shorter routes. It may be difficult to ride in groups based on the varied route options as well as the varied pace of riders.

Rides marked "FOOD" mean that the club or ride leaders provide mid-ride refreshments.

Summer Ride & Picnic Series - friendly group rides of about 20-30 miles in the summer months with a bonus picnic afterwards. Bring your bike, maybe a camp chair and definitely a smile! (see BBC website and Facebook Events for specific details).
