## ABOUT THE CLUB

The Bombay Bicycle Club of Madison, Inc. was founded in 1974. All cyclists are cordially invited to participate in our rides. Just show up, wear a helmet, and sign a liability waiver. There is no fee unless noted in this schedule. We hope you'll enjoy yourself enough to become a member of the club. To learn more, visit [www.bombaybicycle.org](http://www.bombaybicycle.org).

## ABOUT BOMBAY RIDES

Bombay rides are scheduled from April through November and go rain or shine. Starting times and starting points are listed in the schedule.

**Traditional Sunday Rides** have the largest turnout and usually have long, medium and short options. Start points are mostly close to Madison. Ride leaders usually organize staggered starts and "sweep" the route. Novice riders should consider taking the short option.

**Saturday Rides** – Saturday rides offer more variety in start points and distances. Many Saturday rides start in the countryside outside of Madison. Ride leaders usually organize staggered starts and "sweep" the route.

**Wright Stuff Century Practice Rides** – Nine of the rides between April 18 and August 29 are designed to be good WSC practice for riders of all abilities. Riding these routes will build both distance and hills and prepare you to enjoy 9/5 whether you plan 30, 64 or 100 miles. These rides are marked as "WSC Practice"

**Thursday Evening Leisure Rides** are friendly group rides of about 25 miles, always starting out of town. Participants are encouraged to stay and socialize at a local restaurant following the ride. These rides are listed in a separate section at the end of the schedule.

**Rides marked "FOOD"** mean that the club or ride leaders provide mid-ride refreshments.

**Rides marked "FAMILY"** are easy and feature events or places of interest to parents and children.

**The Tuesday Evening Introduction Series** is designed to be a welcoming and leisurely ride for those new to cycling or returning after some time off. Riders meet at the Vilas Park shelter at 6:30 p.m. on the second Tuesday of June, July and August. Some instruction is followed by a question and

answer session by an experienced club cyclist. The group rides for about an hour on bike paths and through the Arboretum.

## HILLINESS RATINGS

Mileages and hilliness ratings are stated for the long, medium and short loop options of all Saturday and Sunday rides. Folks, this is art, not science, but we hope it helps you choose rides you will enjoy. **Flat** rides feature little or no climbing. Rides rated **Rolling Hills** feature relatively gentle hills. **Moderately Hilly** rides feature a modest number of climbs that are not unusually steep or long. **Hilly** rides have many climbs and some may be quite steep or long. **Very Hilly** rides are good choices for riders who really enjoy climbing and descending hills.

## WHAT CAN I EXPECT ON A BOMBAY RIDE?

Routes follow scenic back roads; there may be some stretches on busier roads or highways. Before leaving the starting point each rider gets a map and a cue sheet with turn-by-turn directions for the ride. Riders go at their own pace. Our rides are not races. Typically, the ride leader will use staggered starts to group riders who ride at a similar pace. Although the Bombay Bicycle Club of Madison, Inc. cannot assume responsibility for riders or their equipment, ride leaders will assist riders in any way they can. We require you to wear a helmet and recommend a multi-speed bicycle in safe operating condition. A water bottle is essential (two in summer) and you should be adequately prepared to fix a flat (spare tube, pump, patch kit, tire levers, and know-how).

## RIDE FRIENDLY!

Bombay riders share the road with each other and motorists. Be considerate and respectful of motorists and our neighbors in the areas we visit. Participants on Bombay rides should ride predictably, smoothly, non-competitively, and in accord with Wisconsin laws. Use appropriate hand signals before slowing, stopping or turning, call out "car up", "car back", and "on your left" when passing to alert other riders. Point out road hazards to those following you.

## WISCONSIN STATE LAW

Every person riding a bicycle on a roadway is granted all the rights and is subject to all the responsibilities that apply to operators of a vehicle. Motorists must leave at least three feet of clearance when passing a bicycle. Bicyclists must leave at least three feet of clearance when passing other vehicles. Bicyclists must use hand signals when turning or stopping unless both hands are needed to control the bicycle. Bicyclists should ride as near as they safely can to the right edge of the roadway, unless preparing to make a left turn. On one-way streets bicyclists may ride as close as possible to the right or left edge of the roadway. Bicyclists may not ride more than two abreast on a roadway. Bicyclists must have a white light visible from at least 500 feet in front of the bike and a red reflector at least two inches in diameter visible from at least 500 feet to the rear when riding at night. Bicycles must be equipped with brakes in good working order.

**9/5 Sun Tyrol Basin, Mt. Horeb 7:30 AM****BBC's 32<sup>nd</sup> Annual Wright Stuff Century****L-100, M-64, S-30 Hilly FOOD-LOTS! Pre-Register!**

Let's do some hills! Revised route (same as 2009) is hilly but not horribly hilly and restores the best crazy downhills. You'll enjoy miles of the area's most scenic back roads. The 64 and 100-mile routes include views of Frank Lloyd Wright's Taliesin at Spring Green. The 30-mile loop though not as hilly as the others still has a couple challenging sections. Start with a full water bottle and finish with the welcome back buffet. Support services include rest stops with loads of good snacks, mechanical assistance and sag-wagon/sweep. Reduced Fee for Bombay Members. Registration is limited, so sign up early on [bombaybicycle.org](http://bombaybicycle.org) (**Wright Stuff Century**) to secure your spot on this popular ride, or use the form in this newsletter to register by mail.
